

Marconi Communications Software Systems

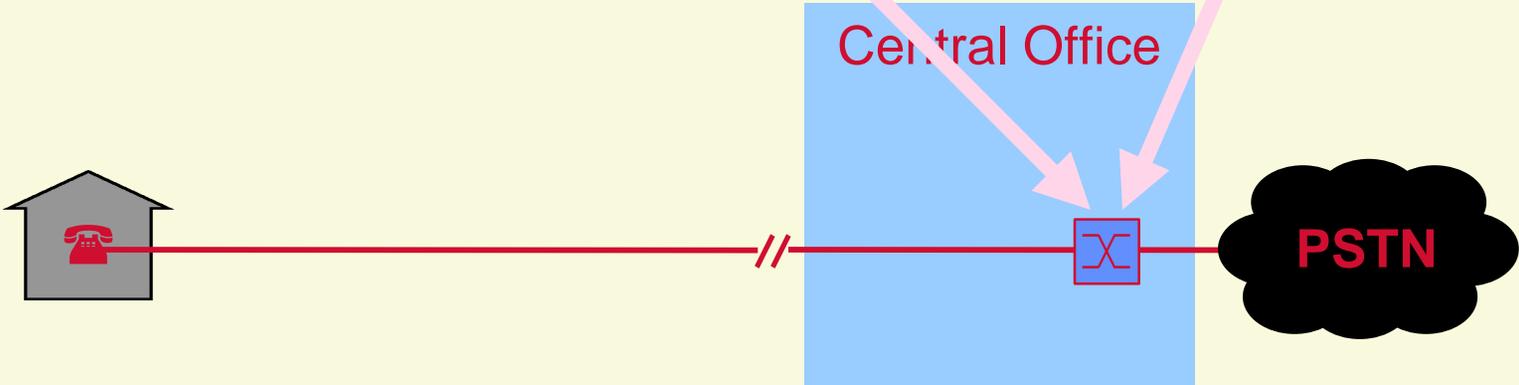

Management Aspects of Voice Moving to Packet Infrastructure

Author: Markus Noller

Today's Narrowband Networks

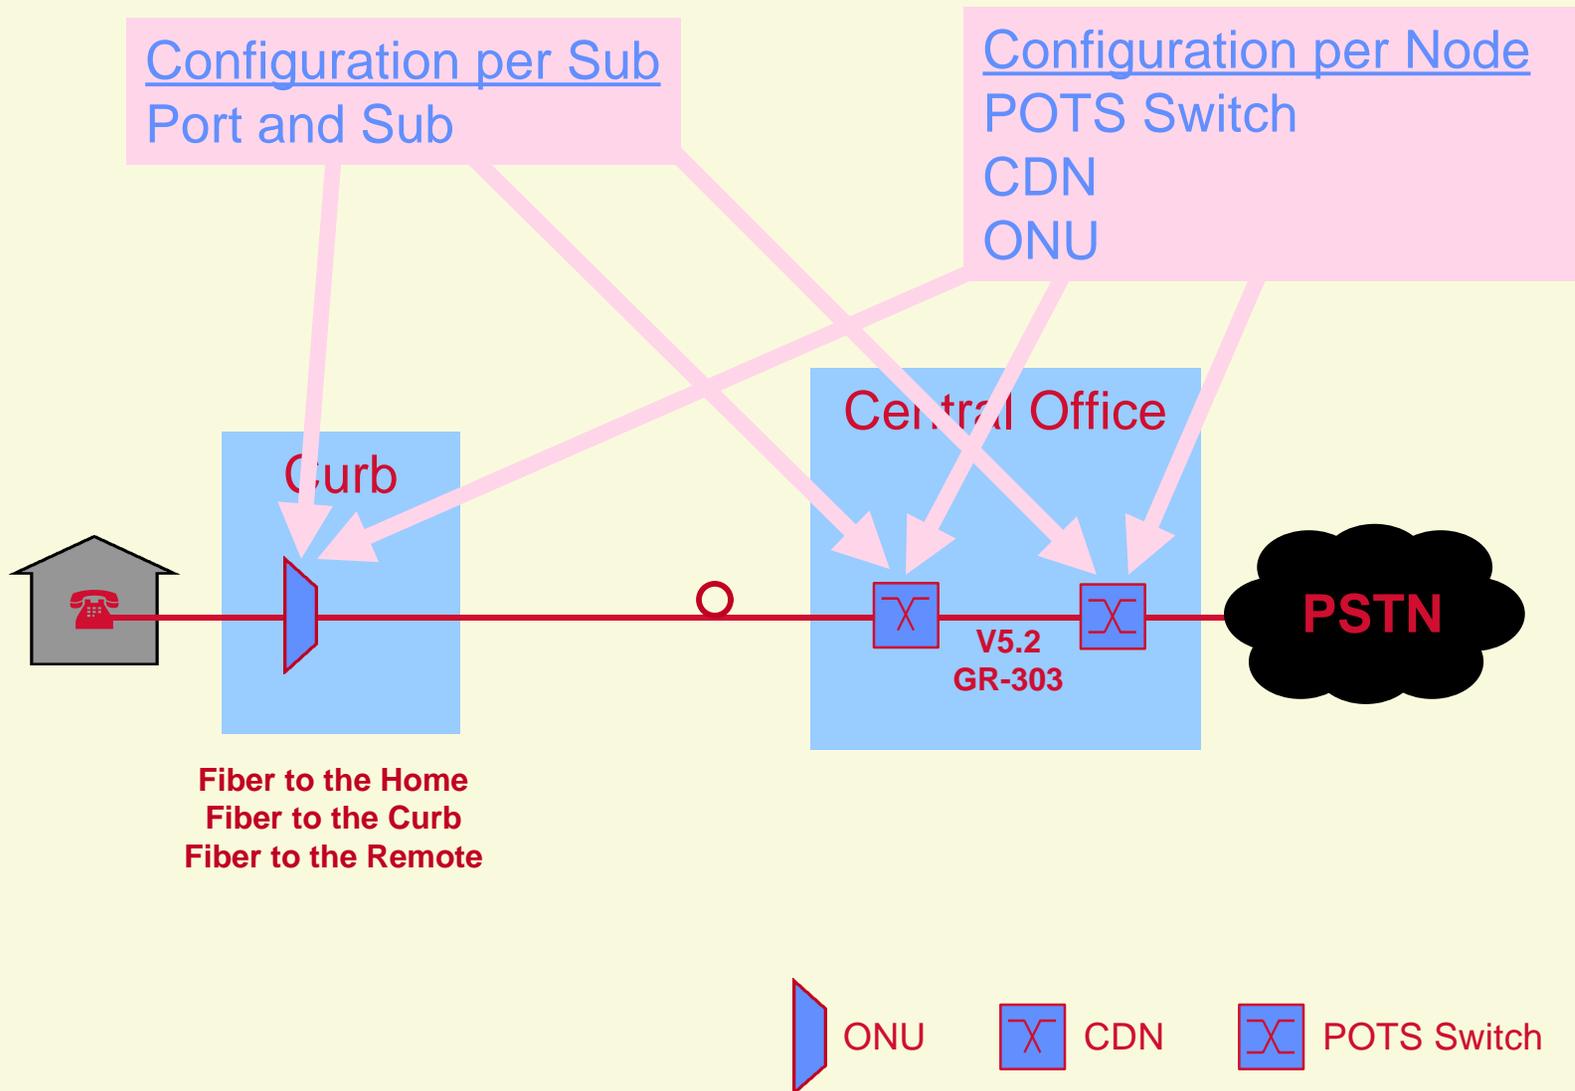

Configuration per Sub
Port and Sub

Configuration per Node
POTS Switch
e.g. Trunks and Bundles

 POTS Switch

Fiber enhanced Networks

Voice Over Packet

Most Configuration is Remote

VoIP Gateway

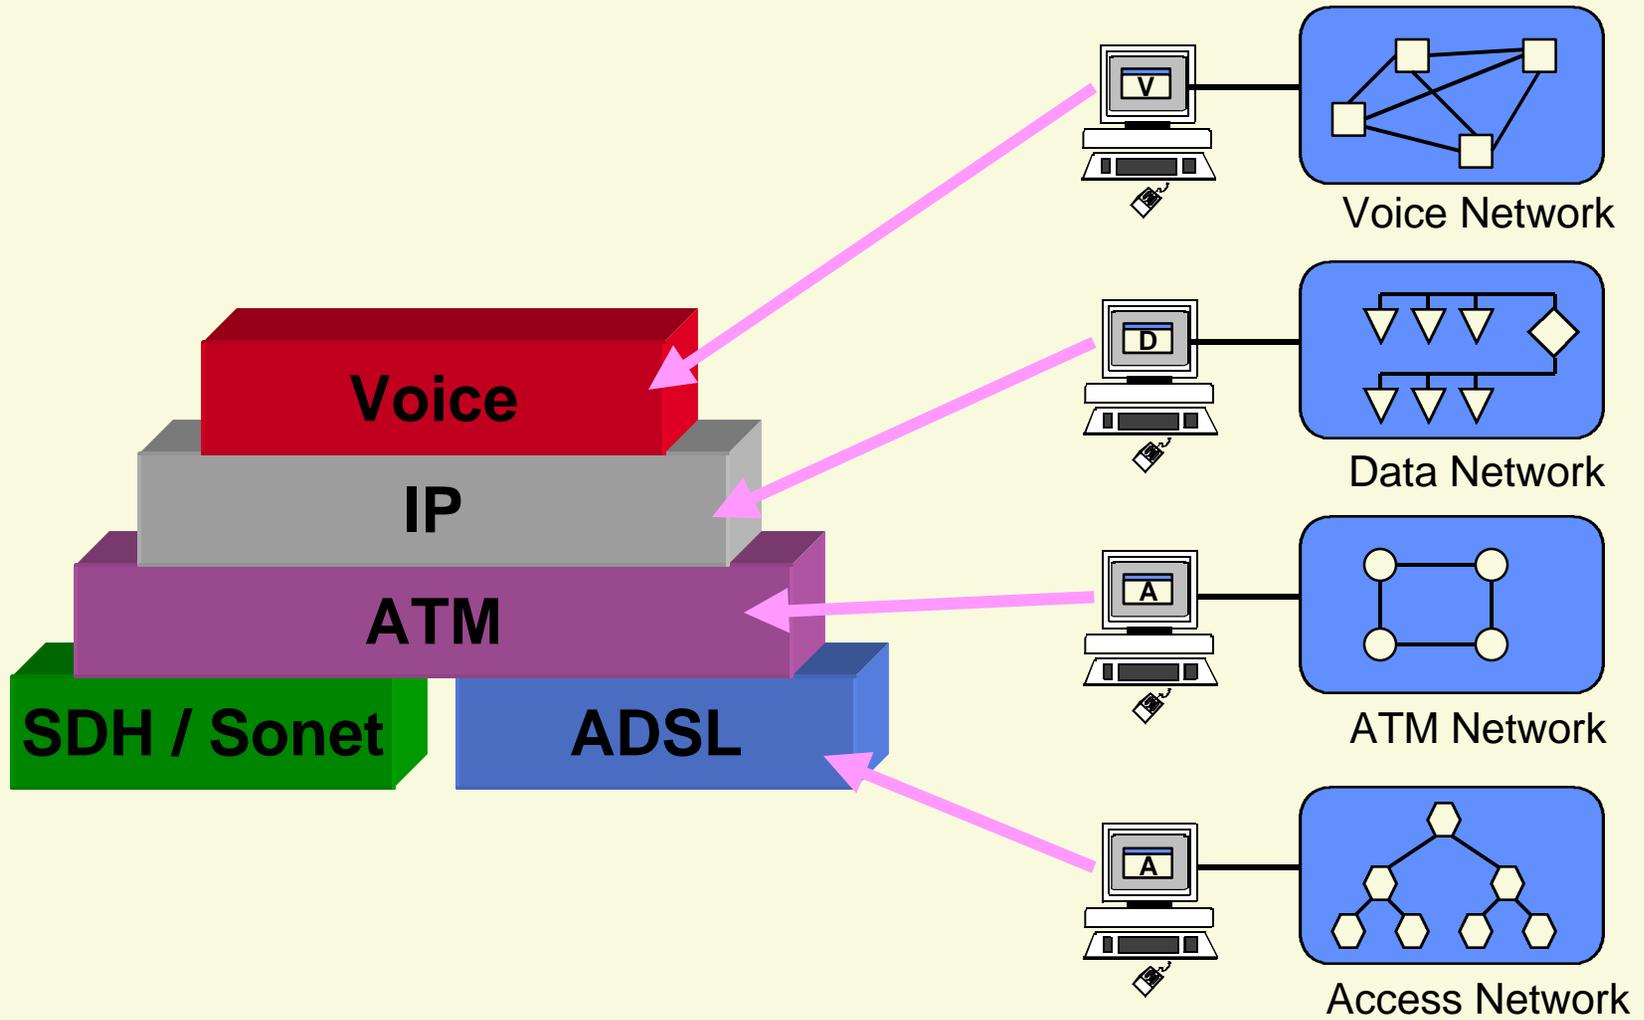

ATM Switch

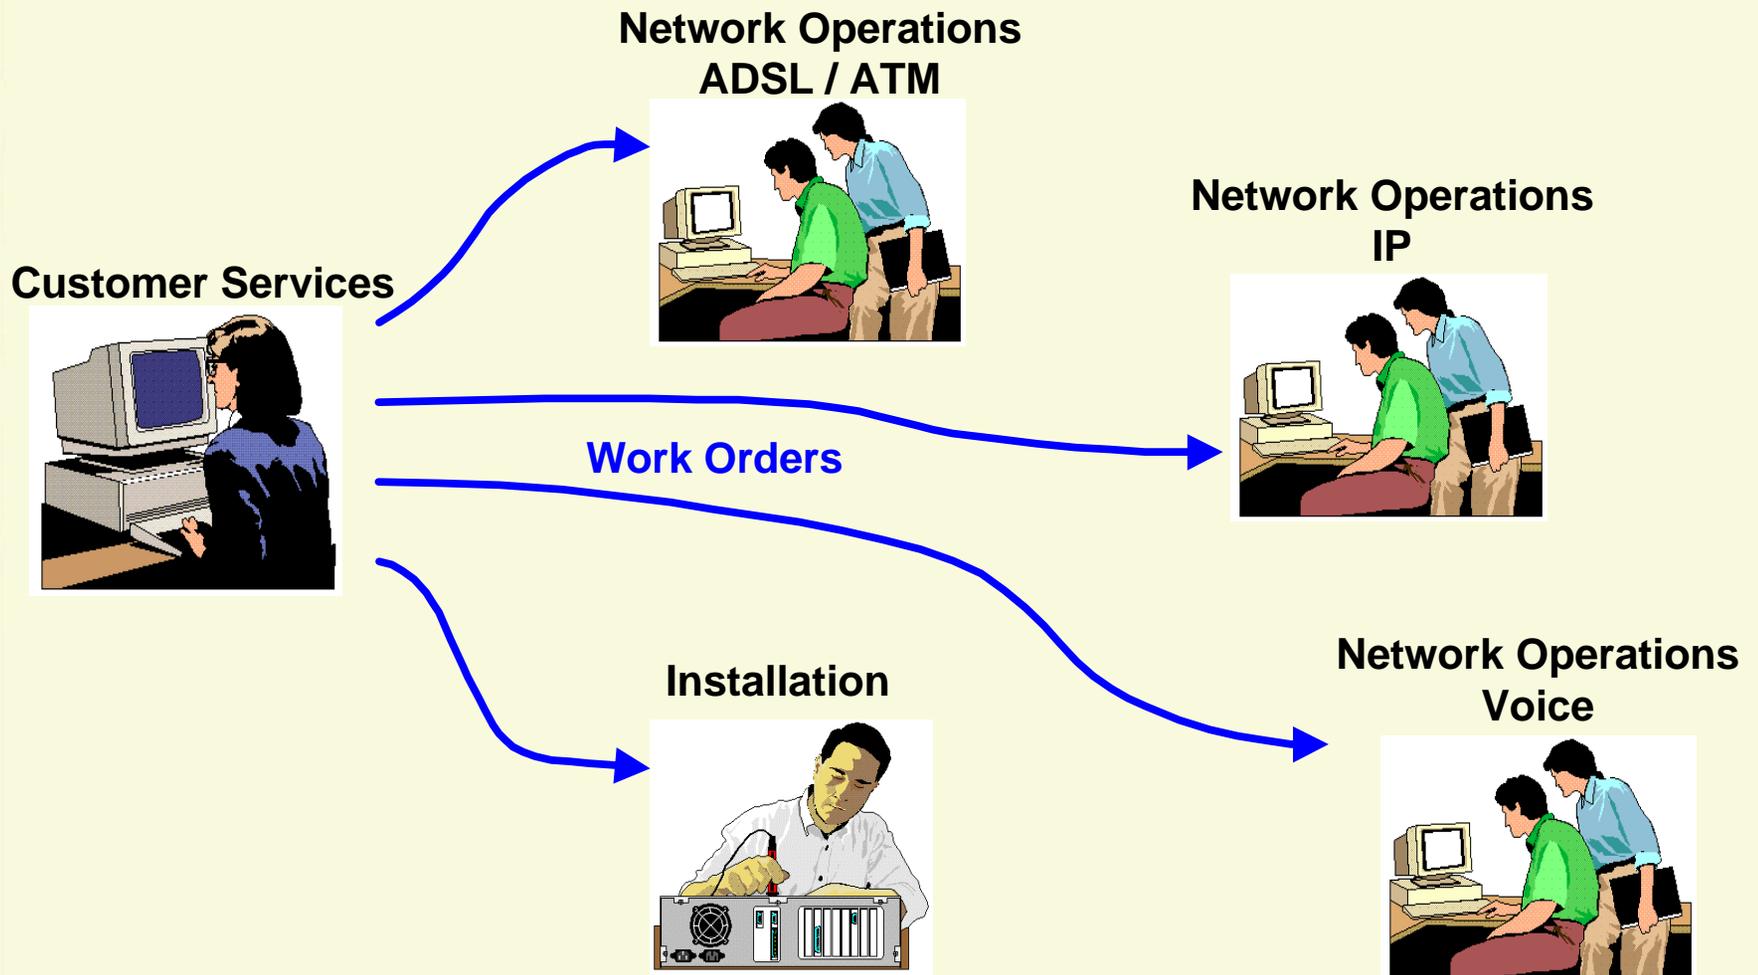

IP Switch/Router

Layered Networks

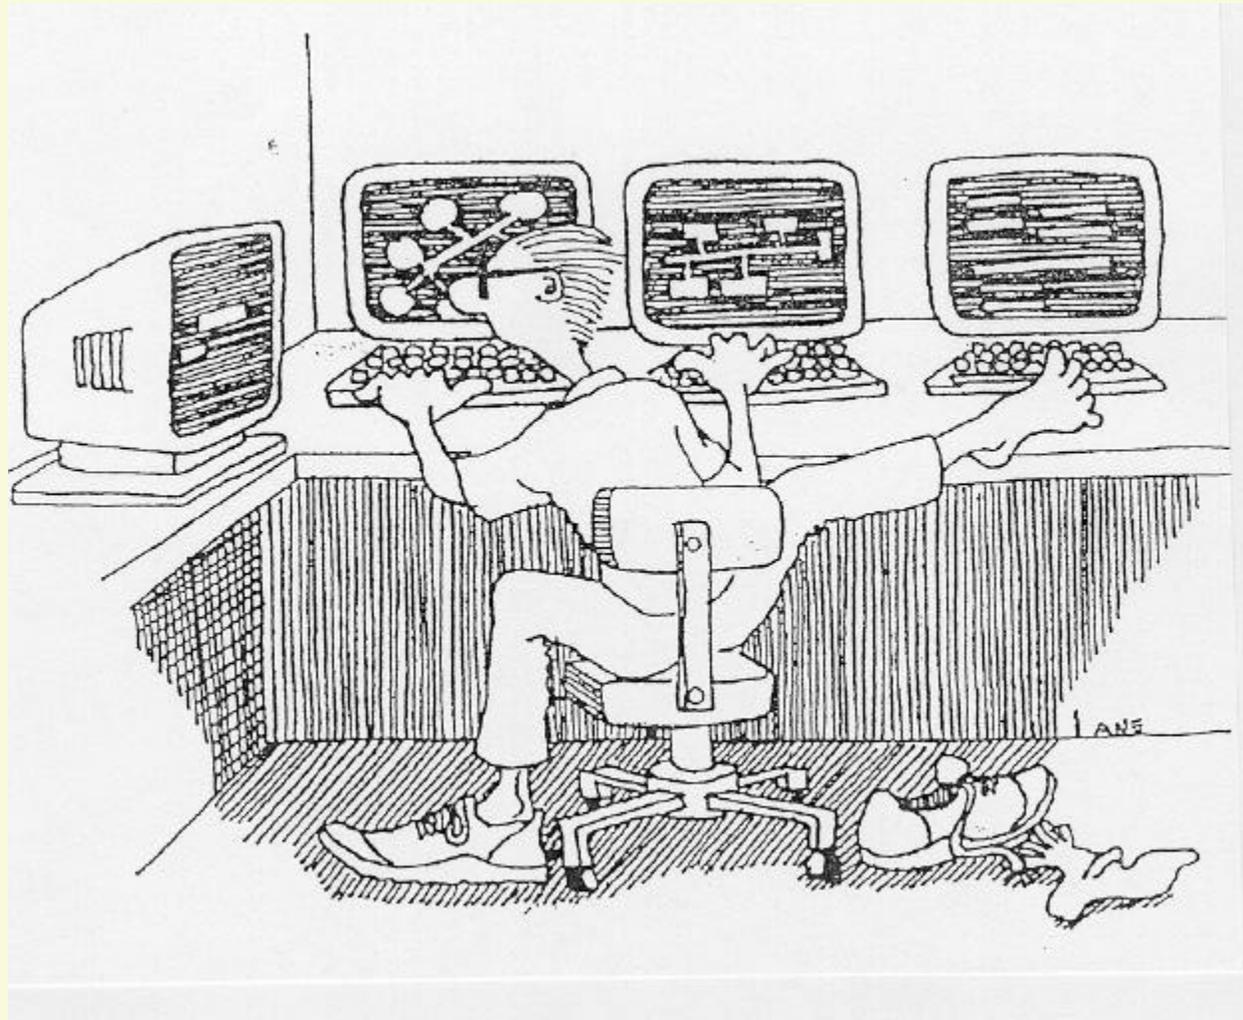

Integration by Workflow Management

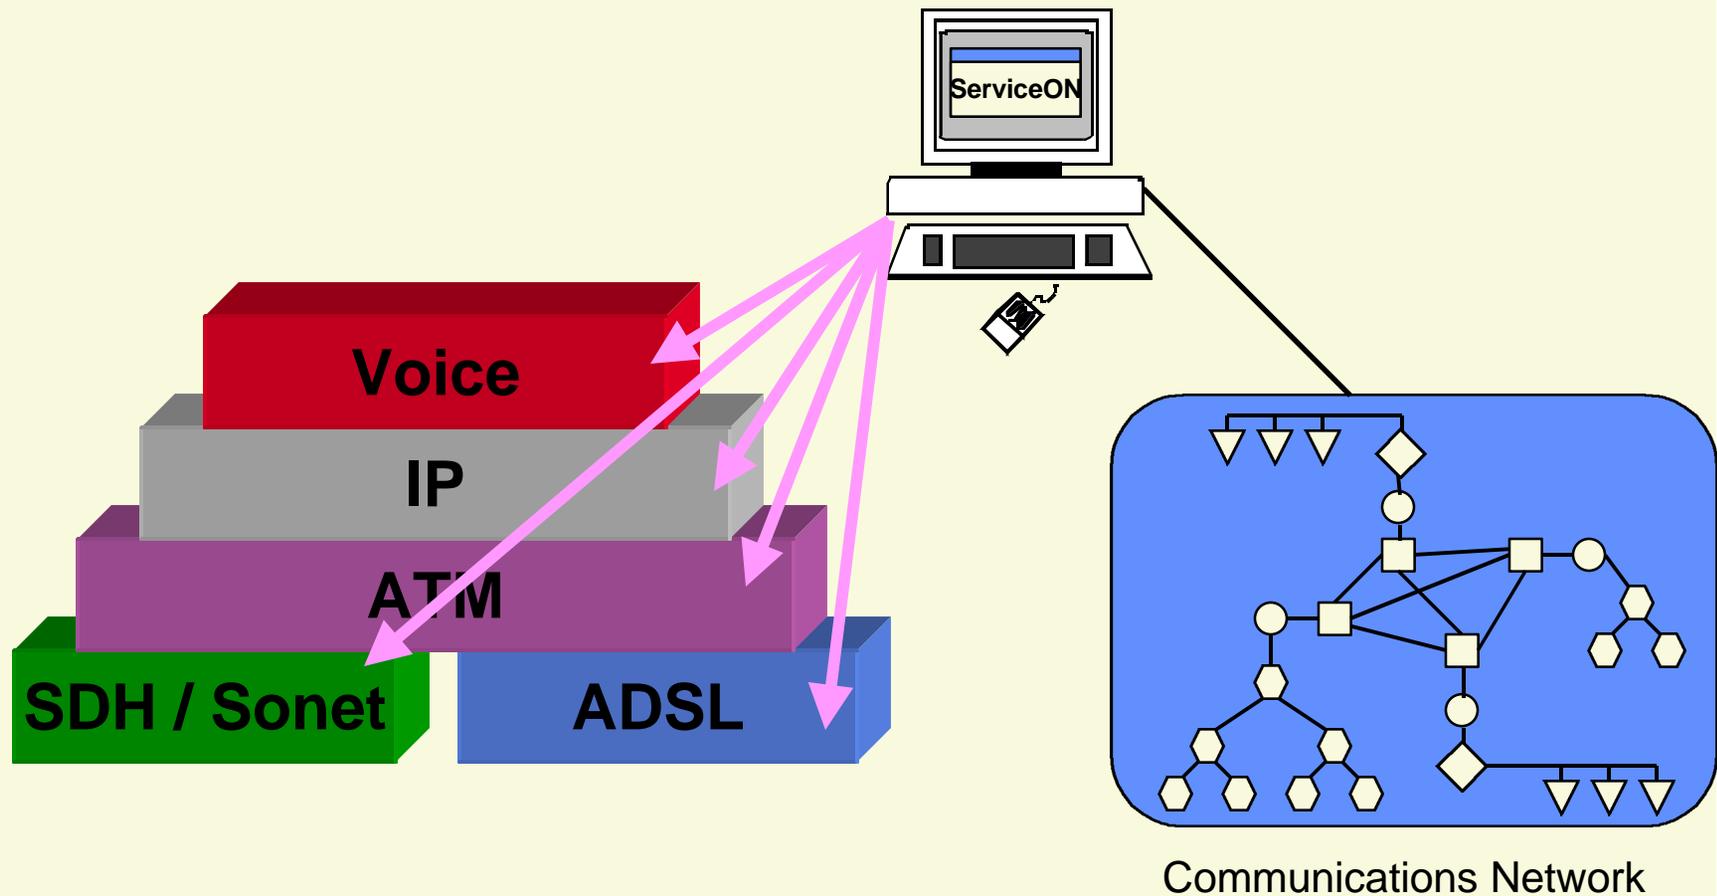

Critical Success Factors

- **Installation of Services** **SLOW**
- **Performance of Services** **WHERE ?**
- **Operational Costs** **HIGH**

Low-Cost Solution

Preferred Solution: Integrated Network Management

THIS COULD BE YOUR
FINEST HOUR.

Thank You !
